CONTENTS

OF THE

33rd YEAR OF THE ENGLISH EDITION.

	Pages.	Numbers of the decimal classification.
No. 1. — JANUARY 1956.		
I. **Development of railway tariffs. Economic justification of these tariffs. Adjustment of tariffs to the new conditions of the general economic system and to the competition of the other forms of transport. Function of tariffs in coordination of inland transports** (Question 3, Enlarged Meeting of the Permanent Commission, The Hague (Scheveningen), 1956). Report *(America (North and South), Australia (Commonwealth of), Burma, Ceylon, Egypt, Finland, Germany (Federal Republic), India, Indonesia, Irak, Iran, Republic of Ireland, Japan, New Zealand, Norway, Pakistan, South Africa, Sudan, Sweden, United Kingdom of Great Britain and Northern Ireland and dependent overseas territories)*, by Dr. O. MAIER	1	**656** .23
II. **The modernisation of train control installations on the Belgian Railways,** by P. SCHOONJANS and V. BELEVITCH	17	**656** .254 (493)
III. **The fifty years of the Knorr-Bremse Company,** by A. BRILL	67	**625** .25 (09 (43)
IV. **An atomic gas-turbine locomotive**	71	**621** .438 (73)
V. **Development in high capacity shock absorbers and buffers,** by A. P. FITZJOHN	78	**625** .156 & **625** .216
VI. **Diesel-hydraulic railcars in the U.S.A.**	83	**621** .431 .72 (73)
VII. OBITUARY : Charles GUFFLET	87	**385** (09 .2
VIII. OFFICIAL INFORMATION ISSUED BY THE INTERNATIONAL RAILWAY CONGRESS ASSOCIATION: **Meeting held by the Permanent Commission,** in Brussels, on the 22nd October 1955. **Appendix :** List of Members of the Permanent Commission	89	**385** (06 .111
IX. MONTHLY BIBLIOGRAPHY OF RAILWAYS	1	**016** .385 (02
No. 2. — FEBRUARY 1956.		
I. **Research on the economic usefulness and the technical opportunity to install a third track, serving for common use (banalisation), in addition to sections of double track lines with heavy traffic, instead of installing two double track lines on such sections. Consequences of the installation of a third track for use in either direction on the conditions necessary to insure the safety of train movements.** (Question 1, Enlarged Meeting of the Permanent Commission, The Hague-Scheveningen, 1956) : Report: *(America (North and South), Australia (Commonwealth of), Burma, Ceylon, Egypt, India, Irak, Iran, Republic of Ireland, Japan, Netherlands, New Zealand, Norway, Pakistan, South Africa, Sudan, Sweden, United Kingdom of Great Britain and Northern Ireland and dependent overseas territories)* by V.J.M. DE BLIECK	95	**656** .21 & **656** .25

	Pages.	Numbers of the decimal classification
No. 2. — FEBRUARY 1956. *(continued.)*		
II. **Development of railway tariffs. Economic justification of these tariffs. Adjustment of tariffs to the new conditions of the general economic system and to the competition of the other forms of transport. Function of tariffs in coordination of inland transports.** (Question 3, Enlarged Meeting of the Permanent Commission, The Hague-Scheveningen, 1956) : Report: *(Austria, Belgium and Colony, Bulgaria, Cambodia, Czechoslovakia, Denmark, Ethiopia, Finland, France and French Union, Greece, Hungary, Italy, Lebanon, Luxemburg, Netherlands, Poland, Portugal and overseas territories, Rumania, Spain, Switzerland, Syria, Turkey and Yugoslavia)*, by L. ANTOINE . .	107	**656** .23
III. **In a system of standard, narrow or broad gauge lines which has Diesel traction for shunting and for main line working, what are the conditions governing : 1) the choice of the characteristics and kind of transmission; 2) the most economical organisation, maintenance and operation. Research into savings that might be possible in comparison with steam traction.** (Question 2, Enlarged Meeting of the Permanent Commission, The Hague-Scheveningen, 1956) : Report: *(America (North and South), Australia (Commonwealth of), Burma, Ceylon, Egypt, India, Irak, Iran, Republic of Ireland, Japan, New Zealand, Norway, Pakistan, South Africa, Sudan, Sweden, United Kingdom of Great Britain and Northern Ireland and dependent overseas territories)*, by R.F. HARVEY . .	129	**621** .431 .72
No. 3. — MARCH 1956.		
I. **In a system of standard, narrow or broad gauge lines which has Diesel traction for shunting and for main line working, what are the conditions governing : 1) the choice of the characteristics and kind of transmission; 2) the most economical organisation, maintenance and operation. Research into savings that might be possible in comparison with steam traction.** (Question 2, Enlarged Meeting of the Permanent Commission The Hague-Scheveningen, 1956). — Report : *(Austria, Belgium and Colony, Bulgaria, Czechoslovakia, Denmark, Ethiopia, Finland, France and French Union, Germany (Federal Republic), Greece, Hungary, Indonesia, Italy, Luxemburg, Netherlands, Norway, Poland, Portugal and overseas territories, Rumania, Spain, Sweden, Switzerland, Syria, Turkey, Viet-Nam and Yugoslavia)* by R. BIAIS	233	**621** .431 .72
II. **Competition in the transport field in Sweden and its economic effects,** by Arne SJÖBERG	282	**656** (485)
III. **Automatic block installation on the Rome Metro,** by Dr. Ing. GIULIO CINI	292	**656** .256: **625** .42 (45)
IV. **Developments in the sphere of track circuits, due to electronics,** by M. WALTER . . .	301	**656** .25 (44)
V. **Progress report on New York Central. Four tracks to two, with CTC**	314	**656** .21 (73) & **656** .25 (73)
VI. OFFICIAL INFORMATION ISSUED BY THE PERMANENT COMMISSION OF THE INTERNATIONAL RAILWAY CONGRESS ASSOCIATION : **List of Questions** for discussion at the Enlarged Meeting of the Permanent Commission (The Hague-Scheveningen, 1956), with the names of the Reporters	320	**385** (06 .111
VII. MONTHLY BIBLIOGRAPHY OF RAILWAYS	9	**016** .385 (02

No. 4. — APRIL 1956.

	Pages.	Numbers of the decimal classification.
I. **Research on the economic usefulness and the technical opportunity to install a third track, serving for common use (banalisation), in addition to sections of double track lines with heavy traffic, instead of installing two double track lines on such sections. Consequences of the installation of a third track for use in either direction on the conditions necessary to insure the safety of train movements.** (Question 1, Enlarged Meeting of the Permanent Commission, The Hague-Scheveningen, 1956) : Report : *(Austria, Belgium and Colony, Bulgaria, Cambodia, Czechoslovakia, Denmark, Ethiopia, Finland, France and French Union, Germany (Federal Republic), Greece, Hungary, Indonesia, Italy, Luxemburg, Poland, Portugal and overseas territories, Rumania, Spain, Switzerland, Syria, Turkey, Viet-Nam and Yugoslavia)*, by E. TENTI and A. RIGGIO	323	**656** .21 & **656** .25
II. **Diesel hydraulic twin railcars for Mexico,** by F. KRESS	349	**621** .431 .72 (725)
III. **What differentials in rates?,** by W. G. SCOTT	376	**656** .23 (73)
IV. **Traditional differentials... in rate making,** by Alan M. WHITE	385	**656** .23 (73)
V. **N & W classifies cars automatically**	388	**656** .212 (73)

III. **1954 — London Congress. — Note relating to Summary 10 of Question 10** *(Wear of rails on curves)*	404	**621** .135 .4, **625** .143 .3 & **625** .215
IX. MONTHLY BIBLIOGRAPHY OF RAILWAYS	17	**016** .385 (02

	Pages.	Numbers of the decimal classification.
No. 5. — MAY 1956.		
I. Special accounts summing up the reports on the questions for discussion at the Enlarged Meeting of the Permanent Commission of the International Railway Congress Association. (The Hague-Scheveningen, 1956) :		
Sections I and III : WAY AND WORKS — WORKING.		
QUESTION 1. — **Research on the economic usefulness and the technical opportunity to install a third track, serving for common use (banalisation), in addition to sections of double track lines with heavy traffic, instead of installing two double track lines on such sections. Consequences of the installation of a third track for use in either direction on the conditions necessary to insure the safety of trains movements,** by E. TENTI and A. RIGGIO	405	**656** .21 & **656** .25
Section II : LOCOMOTIVES AND ROLLING STOCK.		
QUESTION 2. — **In a system of standard, narrow or broad gauge lines which has Diesel traction for shunting and for main line working, what are the conditions governing : 1) the choice of the characteristics and kind of transmission; 2) the most economical organisation, maintenance and operation. Research into savings that might be possible in comparison with steam traction,** by R. F. HARVEY	427	**621** .431 .72
Section IV : GENERAL.		
QUESTION 3. — **Development of railway tariffs. Economic justification of these tariffs. Adjustment of tariffs to the new conditions of the general economic system and to the competition of the other forms of transport. Function of tariffs in coordination of inland transports,** by L. ANTOINE	437	**656** .23
II. The new **centralised control of train staff** on the S.N.C.F., by M. LONG	441	**385** .581 (44)
III. **Reconstruction of the bridge across the Saone** at Macon, by A. LAZARD	451	**625** .13 (44)
IV. **Electronic « Brain » classifies cars**	462	**656** .212 .5 (73)
V. **Rubber components for suspension systems**	471	**621** .431 .72 & **625** .28
VI. MONTHLY BIBLIOGRAPHY OF RAILWAYS	29	**016** .385 (02
No. 6. — JUNE 1956.		
I. **Lateral strength of permanent way when free from load,** by R. SONNEVILLE and A. BENTOT	481	**625** .14 (01
II. **Mechanised goods depot at Lyons-Guillotiere,** by DELACARTE and BONNOT	492	**656** .212 .7 (44)
III. **Evolution of the lighting of passenger coaches on the German Bundesbahn, and in particular of modern lighting by fluorescent tubes,** by W. HÖER	513	**625** .234 (43)
IV. **Up-to-the-minute car reporting... as the Erie does it**	530	**656** .212 (73)
V. **Detecting flaws in traction gears**	537	**621** .333
